

PRODUCT MICRO-NICE® BIO AIR CONDITIONER CLEANER

INDICATIONS: Cleans dirt and grime adhered to air conditioner fins of both hot and cooling coil.
Removes dirt and grime from the filter.
Removes unpleasant odor and dirt on air conditioner mask.
Non-corrosive to metal, paintwork and air conditioner parts.
Safe to use and environmentally friendly.
Not less than 90% biodegradable.

DIRECTIONS: Clean cooling coil by spraying Micro-Nice® Bio Air Conditioner on the mask and leave it at least for 5 minutes. Then clean the hot coil by spraying the product over the fins and leave it for 10 minutes. Wash off with clean water. Allow to dry, then turn on the air conditioner.

CAUTIONS: For safety purpose, turn off the air conditioner and check electrical wiring before cleaning.

NOTE: This product is used for cleaning purpose only. It should not be taken internally. Wash down with plenty of water if it gets into the eyes. If swallowed, do not induce vomiting, drink plenty of water or milk and consult a physician immediately.
Keep this and all cleaners out of the reach of children.
