

**PRODUCT**                    **MICRO-NICE® ENSENSE**

**INDICATIONS:**            Eliminates foul odors, amine, ammonia, hydrogen sulfide etc.  
Can be applied to all sewage treatment systems.  
Help reducing B.O.D., and also enhance bacterial growth.  
Safe to use and environmentally friendly.  
Not less than 90% biodegradable.

**DIRECTIONS:**            Regularly add in sewage water at 500-1,000 PPM.  
Apply into the first grease trap.  
Caution: Avoid using germicide product in the system.  
Mix 1 part Micro-Nice® Ensense to 10 parts clean water to remove  
foul odor in sewage drain pipe and toilet areas.

**NOTE:**                      This product is used for cleaning purpose only. It should not be taken  
internally. Wash down with plenty of water if it gets into the eyes.  
If swallowed, do not induce vomiting, drink plenty of water or milk  
and consult a physician immediately.  
**Keep this and all cleaners out of the reach of children.**
